Education

GOKARAJU RANGARAJU INSTITUTE OF ENGINEERING AND TECHNOLOGY **2023 - 2027**
Computer Science and Information Technology (CGPA-8.55) Hyderabad, India

Trividyaa Junior College **2021 - 2023**
Intermediate in MPC (CGPA- 9.56) Hyderabad, India

Technical Skills

- **Languages:** C, Python, Java, HTML/CSS, JavaScript
- **Framework:** Flask, Vue.js, React.js, React Native, TypeScript, Express.js, Bootstrap, SQLAlchemy, Chart.js
- **Coursework Skills:** Data Structures and Algorithms, Database Management System, Object Oriented Programming, Machine Learning, Operating Systems, Artificial Intelligence and Machine Learning, Software Engineering
- **Databases:** MySQL, PostgreSQL, SQLite
- **Tools & Technologies:** Vercel ,Render, Android Studio, REST APIs, JWT Authentication, Celery, Redis, Git/GitHub

Projects

Hospital Management System | Flask, Vue.js, JWT, Scikit-learn | **Project Link**

- Was one of the team members who designed and implemented HMS system (Flask, Vue.js, JWT full stack) with role-based access control involving 3 roles (admin, doctor, patient) having 47 API endpoints.
- Modelled and trained machine learning algorithms to predict diseases, readmissions, and no-shows with 82% accuracy.

SmartRouteAi | React Native, TypeScript, Node.js | **Project Link**

- Developed React Native application for travel safety that involves time checks and tracking of the GPS location of the person in case of deviation from the planned route
- Integrated Google Maps and Direction API for Auto and Manual modes of navigation and made use of SMS services of the Android phones for automatic sending of SOS signal in case of deviation from the planned route

AI-Powered Video Conferencing Platform | React.js, Node.js, Express.js, Socket.IO, Prisma | (In Progress)

- Built and implemented JWT authentication, creation, and management of meetings and invitations for a full-stack video conferencing application (React.js, Node.js, Express.js, Prisma)
- Working on collaboration among participants through Socket.IO and WebRTC and also meeting summarization through AI (In Progress)

Quiz Management System | Python, Flask, MySQL, HTML/CSS | **Project Link**

- Developed a standalone full-stack quiz application (Flask, MySQL) which used session-based authentication with role-based authorization on around 22 routes, involving a 4-tier content classification scheme (subjects, chapters, quizzes, questions) and enabled CRUD as well as search operations across all tiers
- Developed a quiz application with question-wise navigation, single attempt by user-one, and scoring

Achievements

- Diploma in Programming and Data Science from **Indian Institute of Technology-Madras.**

Co-Curricular leadership

President – FREE SOFTWARE WING Club, GRIET College (2025-2026)

- Headed the team of 35 technical members, leading to extensive planning and operation of events along with Community Engagement.
- Managed a budget of ₹4L in successfully conducting VIVITSU'26, a National level 24-hour hackathon.

Vice-President – STREET CAUSE, GRIET College (2025-2026)

- Managed a team of 40+ volunteers, coordinating and executing multiple community social service initiatives
